mast cell tryptase precursor - Mongolian jird
C;Species: Meriones unguiculatus (Mongolian jird)
C;Species: Meriones unguiculatus (Mongolian jird)
C;Date: 27-Oct-1955 #sequence_revision 03-Nov-1995 #text_change 20-Jun-2000
C;Accession: S56160
R;Murakumo, Y; Ide, H; Itoh, H; Tomita, M.; Kobayashi, T.; Maruyama, H; Horii, Y.; |
Biochem. J. 309, 921-926, 1995
A;Title: Cloning of the cDNA encoding mast cell tryptase of Mongolian gerbil, Meriones |
A;Reference number: S56160; MUID:95366971
A;Accession: S56160
A;Status: preliminary
A;Molecule type: mRNA
A;Residues: 1-270 <MUR>
A;Cross-references: EMBL:D31789; NID:9517122; PIDN:BAA06598.1; PID:9517123
C;Superfamily: trypsin; trypsin homology

Proc. Natl. Acad. Sci. U.S.A. 87:3230-3234(1990).

-I- FUNCTION: TRYPTASE IS THE MAJOR NEUTRAL PROTEASE PRESENT IN MAST CELLS, AND IS SECRETED UPON THE COUPLED ACTIVATION-DEGRANULATION RESPONSE OF THIS CELL TYPE.

-I- CATALYTIC ACTIVITY: Preferential cleavage: Arg-|-, Lys-|-, but with more restricted specificity than trypsin.

-I- ALTERNATIVE PRODUCTS: TWO FORMS OF MCPT6 ARE PRODUCED BY ALTERNATIVE SPLICING OF THE SAME GENE. THE SHORT FORM IS PROBABLY AND FUNCTIONAL VARIANT.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             SEQUENCE OF 32-54.
